

Contract manufacturing for personal care

Gardena, California · Since 2004
No product recalls

Quality you'd expect. Speed you wouldn't.

Formulation, filling and packaging across personal care — everything except color cosmetics. Minimums start at 2,500 units. Production runs 14 to 21 days once materials are in hand.

400,000+

units / month

40–2,400 kg

batch range

1 oz – 1 gal

fill volumes

500+

formulas

14–21 days

production

CATEGORIES

Skin care (specialty) · Textured & curly hair (specialty) · Hair care · Body & bath · Foot care · Men's grooming · Baby care · Feminine care · Pet care · Household & cleaning

FORMATS

EQUIPMENT

10 vessels, 40 kg to 2,400 kg, one temperature-controlled with vacuum cover · tube, multihead and single-head filling from 1 oz to 1 gallon · piston filling with lot coding · induction and blister sealing · wrap, top and bottom labeling · shrink, heat and cooling tunnels · ribbon blender · full RO water to 10,000 gal/day · 620 pallet positions

PROGRAMS AND MINIMUMS

Adapt a Base	from 2,500 units	\$1,500 / SKU	1–2 weeks to approval
Formula Transfer	from 5,000 units	\$2,500 / SKU	2–3 weeks to approval
Custom Development	from 10,000 units	\$5,000 / SKU	3–6 weeks to approval

Three development rounds included on every program. Development fees are credited to your first purchase order when it meets the program minimum. Formulas developed exclusively for you can be purchased outright at \$15,000, or transfer at no cost once \$250,000 of that product has been purchased. Bulk compound quoted separately from 40 kg.

QUALITY AND COMPLIANCE

cGMP manufacturing · FDA-registered facility under MoCRA · MoCRA product listings filed · ISO 22716 certification in progress · Member, Independent Beauty Association. Stability, pH, viscosity and freeze-thaw testing in house; microbial limits and preservative efficacy through a partner lab.
